SUMMARY

Full-stack developer specializing in React, Next.js, Node.js, and PostgreSQL, with experience shipping two live client websites as a sole freelance developer, including a product catalogue with a built-in CRM. Previously built the internal admin CRM for a travel booking platform during a frontend internship. Comfortable owning products end to end across authentication, APIs, databases, deployment, and UI.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer 03/2026 – Present
Self-employed Pune , India

- **Delivered moderndisplay.store** as sole developer: a wholesale product catalogue with a built-in CRM for lead tracking, quotes, role-based admin access, and audit trails, built with Next.js, PostgreSQL, and Prisma.
- **Built ornivapackaging.com** , an animated luxury-packaging site with a stateless Express API that sends quote requests via Resend, requiring no server or database maintenance for the client.

Frontend Developer Intern 03/2025 – 05/2025
Eniacworld Media Pvt Ltd Remote, India

- **Owned the internal admin CRM for TrekkingMantra**, building responsive React.js interfaces with Tailwind CSS and Bootstrap, and integrating REST APIs for booking and content data.
- **Developed Next.js pages** using server-side rendering and file-based routing, while turning Figma designs into reusable, responsive CRM components.

PROJECTS

JoBz: Job Tracker with AI Email Assistant 06/2026 – Present
React, Vite, Tailwind CSS, Supabase, Framer Motion

- Built and deployed a job-application tracker with Supabase Auth, Google OAuth, protected routes, and persistent sessions.
- Implemented status tracking, search, filtering, CSV export, and an AI-assisted email generator for follow-ups and interview correspondence.
- Built a responsive UI with reusable React components and Tailwind CSS, using Framer Motion for interactive animation

ShopNgo: E-commerce App 03/2025 – 01/2026
React.js, Node.js, Express.js, MongoDB

- Built and deployed a MERN e-commerce app with product listings, search, filtering, and cart management.
- Managed state with React Context and routing with React Router, with responsive layouts across mobile, tablet, and desktop.

HandiMan – Service Booking Platform 02/2024 – 11/2024
Django, Django REST Framework, PostgreSQL, AWS S3

- Built a Django platform connecting customers with local service providers, featuring authentication, profiles, and bookings.
- Implemented ratings, reviews, and AWS S3 image uploads, backed by PostgreSQL.
